

Arrowhead Radio Amateur Club, Inc.

P.O. Box 7164
Duluth, MN 55807-7164

The Arrowhead Radio Amateur Club is a non-profit Corporation. The membership consists of amateur radio operators who provide emergency, and health and welfare communications to the Duluth, Superior, and surrounding communities. We work with the National Weather Service in severe weather. We also help with the communication with Grandma's Marathon, the In-Line Skating Marathon and other emergencies such as the Benzene gas spill.

We have one fund raising event each year that supports this emergency, and health and welfare communications. Our annual ham radio swapfest is held the first Saturday of May every year. It will be held at the Multi-use Facility, Head of the Lakes Fairgrounds in Superior, Wisconsin.

Any help you can provide us such as a gift certificate, or specific merchandise, will be greatly appreciated. This donation will be posted at the swapfest for all to see and be used for prizes.

We thank you in advance for helping our organization so we can provide communications to our communities in the future.

A.R.A.C. Swapfest Coordinator
